

Prayer for Safe Delivery

A Prayer for Pregnant Women

O Loving Father in Heaven,
Thank you for blessing us with the gift of new life. Thank you for the blessing of mothers in our lives, especially for [intention]. During this special time of preparation and waiting, we pray for the health and safety of this mother and child as well as all pregnant women and the children they carry. Please bless this mother and all mothers with a safe and healthy pregnancy and delivery. Bring peace and calm to these women during labor and delivery. Help them to turn to you during these times, calling on the Holy Spirit to bring them strength. We ask that you protect these mothers, Lord, so that they may continue to nurture and care for their new babies, raising them to love and serve you all the days of their lives. Please also bless those who are caring for them at this time. Amen.
