

# *Prayer for Unborn Baby and Mother*

O Blessed Mother Mary,

We offer these prayers of praise, thanksgiving, and petition to you, asking for your intercession. No other mother embodied beauty, gentleness, and love like you. Chosen by God, you set the golden example for how we can and should say yes to God in the vocation of motherhood. Today we pray for all unborn babies and their mothers, both living and deceased. We pray for the safety of babies who continue to grow in their mothers' wombs. Help them to grow in the love of the Lord today and always. We also offer this prayer for all the babies who have passed away, both those who have spontaneously passed during pregnancy as well as those whose lives were taken due to the evil of abortion. We continue to pray for an end to abortion. We pray that women considering abortion will experience a change and softening of their hearts. Bless the fathers of these unborn children and the grandparents of these unborn children, encouraging them to nurture their families and to trust fully in the Lord. Bring healing to the women who have suffered the traumas resulting from abortion and inspire them to be a beacon of light and a model of repentance for all those who need it.

*Pray three Hail Marys*

*Pray the Memorare*

*Eternal rest grant unto the soul of all unborn babies who have passed,  
and let perpetual light shine upon them  
May they rest in peace.*

*Amen.*
